

KEEP NELSON BEAUTIFUL: RECYCLE

World markets for recycling materials are constantly shifting and have resulted in changes here at home. The following items can be recycled, but not at all locations. Check with the Solid Waste and Recycling Coordinator for specific information (434 263-7098)

Paper, Plastic and Metal Food Cans

Depending on the location, there will be containers for recycling the following.

Paper

Newspaper, cereal boxes, phone books, paperback books (no hardbacks) junk mail, paper feed bags, etc. If it tears it is probably paper.

Plastic Containers

Water bottles, milk jugs, soap bottles, margarine tubs, cookie and strawberry containers. Plastic bags can't be recycled in these containers. Take them back to the grocery store.

Metal Food Cans

Aluminum, tin, steel, or bi-metal cans that once held food can be recycled. Empty and lightly rinse the cans.
